DETAILED ACTION

1. This Office Action is response to Applicants' Appeal Brief filed on 01/25/2005.
12/23/2004.
2. Claims 1-13 and 35-51 were allowed (dated 08/13/2003)
3. Claims 1-24 and 35-51 are allowed.

Allowable Subject Matter

4. The present application has been thoroughly reviewed. Upon searching a variety of databases, the examiner respectfully submits that claims 1-24 and 35-51 are allowed in light of the applicants' argument and in light of the prior arts of made record.

5. The following is an examiner's statement of reasons for allowance:

The claimed invention is directed to a method, a computer-readable medium containing a program product for reading an input key as a search string and using the N most significant bits of the input key as an address and reading a leaf pattern and comparing the leaf pattern and returning the Longest Prefix Match (LPM) found, and the data structure for determining LPM search and the data structure includes a pattern key

Art Unit: 2162

to be searched, and a data structure for a LPM tree having Direct Table, Pattern Search Control Block (PSCB) and at least one Bird and leaves.

The distinct feature of the independent claims is that, "using the N most significant bits of the input key as an index into a table representing a plurality of root nodes of search trees and a direct table that stores a first address location for a search tree and at least one Bird representing a partial match of the input key."

These distinct features, in conjunction with all other limitations of the dependents and independent claims renders claims 1-24 and 35-51 render them allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
